Qubika

Embedded Engineering - Semiconductor & Systems

MPU, GPU, NPU, MCU | Pre & Post Silicon Firmware | AI & ML | Computer Vision | Edge AI

Semiconductor & Hardware Ecosystem

Cloud & Integr

Firmware & RTOS Engineering

Custom low-level development for microcontrollers and embedded systems

System Bring-Up & SoC Integration

Bootloaders and board initialization for complex architectures

Rightshore Staff Augmentation & Dedicated Teams

Flexible embedded engineering talent to scale your capacity and capabilities

Market-Focused Embedded Services

Deep experience in semiconductors, industrial, healthcare, and automotive

Where you can find us

fidus

Our collaborative culture is built on communication and shared ownership, ensuring successful outcomes.
