

Qubika

DATABRICKS BRICKBUILDER SPECIALIZATION

Qubika is now Databricks Specialized for Financial Services

The specialization is based on a strong track record in the industry

A leading U.S. fintech

Built a modern data foundation on Databricks to support advanced analytics and AI, including AI-powered tools for financial planning and real-time intelligent workflows.

A U.S. financial institution powering embedded finance

Modernized its data platform with a Databricks Lakehouse on Azure, creating a scalable, governed foundation for analytics and data products across its financial services ecosystem.

A leading digital consumer lending company

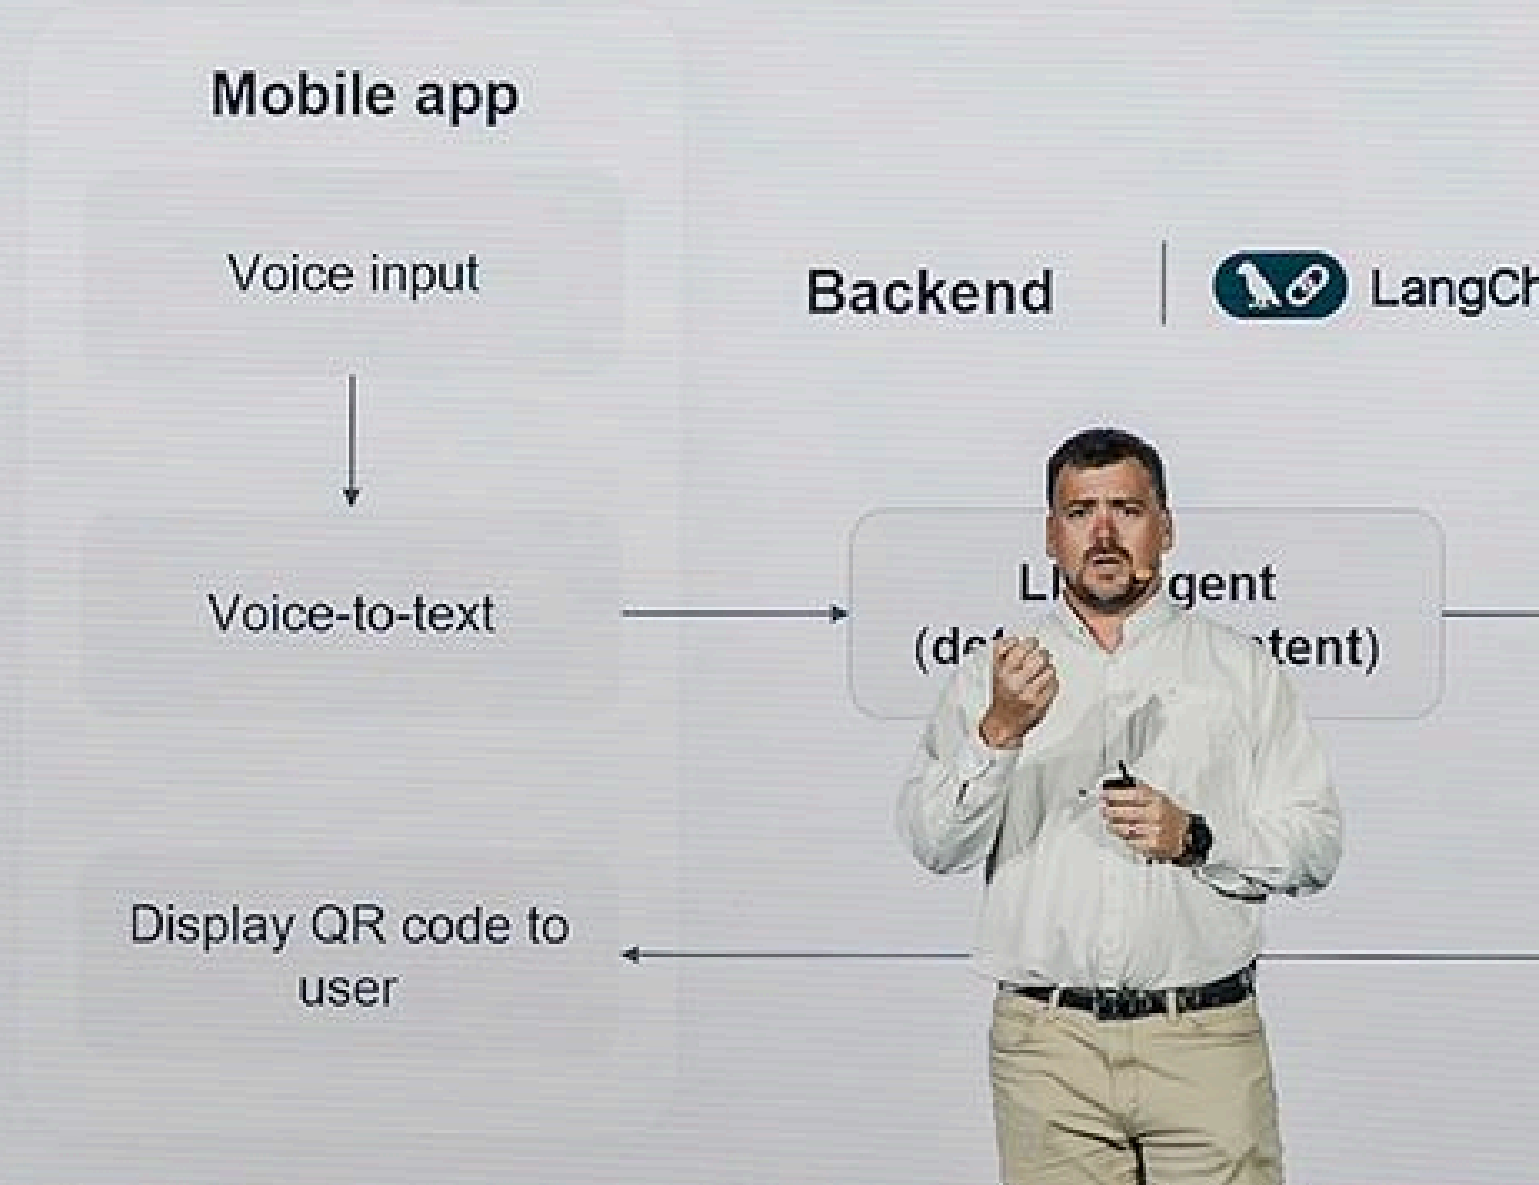

Migrated its data and analytics environment to Databricks, modernizing data infrastructure and model serving to create a more scalable foundation for analytics and AI.
